Tariff system 2019

Terms that are defined in the Definition list have the defined meaning in this annex and are written with a capital letter.

The following Tariffs apply for the HG Certification System:

For Certificates:

22.5 €cent per MWh for the Issue.

The costs are payable by the receiving Trader.

3.0 €cent per MWh for making Transfers between Certificate Accounts. The costs are payable by the purchasing Trader. Where specific transfers to the Dutch Emissions Authority are involved, the costs are payable by the transferring Trader.

1.5 €cent per MWh for Cancellation. The costs are payable by the selling Trader.

For registration and annual contribution:

Trader's annual contribution € 780 per calendar year.

Producer's annual contribution € 780 per calendar year.

End User's annual contribution € 0 per calendar year.

The full annual contribution, irrespective of the number of months that have elapsed, will apply to registration or deregistration during the year.

No annual contribution is payable by the Dutch Emissions Authority.

The tariffs mentioned above are exclusive of VAT and subject to final publication of the tariffs by the Ministry of Economic Affairs.

The Producer will bear the costs of determination, the Metering Responsible Party's costs and the costs relating to the Assurance Report.
